PROFESSIONAL SUMMARY

Multidisciplinary Prompt Engineer and Senior QA Engineer with 9+ years of experience in front-end testing, backend validation, and software quality — recently transitioned into LLM evaluation and generative AI content design. Skilled at crafting structured, logic-driven prompts and conducting large-scale evaluation of model outputs. Combines a quality-first engineering mindset with creative AI techniques to build high-impact, consistent, and visually compelling results. Strong communicator, fast learner, and systems thinker who bridges traditional QA principles with cutting-edge AI workflows.

TOP SKILLS

- **AI & Prompt Engineering:** MidJourney, OpenAI, DALL·E, Leonardo, Sora, Imagine Studio
 - **LLM Evaluation & NLP QA:** Prompt design, Diarization QA, Response scoring, Model fine-tuning insights
 - **Test Automation:** Selenium, Appium, WebdriverIO, Playwright (learning), TestNG, CircleCI
 - **Backend & API Testing:** REST APIs, Postman, OracleDB, Kafka, curl, Docker
 - **Languages:** JavaScript, Java, SQL, Python (scripting), Node.js
 - **Dev & QA Tools:** Git, GitHub, IntelliJ, VS Code, Xray, Jenkins, JIRA, Confluence
 - **Strengths:** Technical Writing · Logic & Evaluation · Agile Delivery · Cross-functional Collaboration
-

PROFESSIONAL EXPERIENCE

AI Prompt Engineer Reviewer

Outlier – Remote | Aug 2024 – Present

- Designed 100+ logic-based prompts for LLM evaluation (math and English tasks).
- Audited peer prompts for structure, clarity, and logic, reducing revision time by 30%.
- Developed QA-style prompt frameworks that improved model output consistency by 25%.

- Helped shape prompt standards to ensure repeatability and precision across evaluations.

AI Response Evaluator

Aligner – Remote | May 2025 – Present

- Assessed AI-generated text/audio for coherence, grammar, and semantic logic.
- Conducted diarization QA to validate speaker turns and timing accuracy in audio transcripts.
- Delivered structured scoring feedback to AI teams to improve performance and reduce hallucinations.

Independent AI Content Creator

Self-Led Projects – Remote | 2022 – Present

- Created viral visuals and short-form videos using MidJourney, DALL·E, and other tools.
- Applied prompt design strategies to guide model behavior and stylization.
- Explored model variability and storytelling potential across platforms.

Senior SDET & Technical Writer

Razor (Booz Allen Hamilton / Veterans Affairs) – Remote | Jul 2023 – Present

- Led backend integration testing across REST APIs and Kafka-based services.
- Built Docker environments to mirror production pipelines.
- Authored technical documentation and compliance-ready test plans.
- Ensured traceability and audit readiness using Xray and Agile methodologies.

Quality Assurance Engineer II

Ellevest – Remote | Jun 2019 – Oct 2022

- Managed end-to-end QA for mobile/web platforms in a CI/CD pipeline.
- Developed and maintained UI automation using Selenium, Appium, and WebdriverIO.
- Streamlined regression testing, reducing manual cycles by 60%.
- Collaborated closely with developers and designers to ensure functional excellence.

QA Engineer Team Lead

Oracle – Greater NYC | Oct 2016 – Jun 2019

- Led an offshore QA team testing ad analytics across web and mobile platforms.
- Validated data visualization, event tracking, and revenue impact metrics.
- Identified six-figure billing discrepancies and implemented audit checks.

Data Specialist

S&P Global Ratings – Greater NYC | May 2015 – Oct 2016

- Automated compliance reporting workflows with Excel scripting.
 - Reduced manual errors by 95% and supported internal audit preparation.
-

EDUCATION & CERTIFICATIONS

- **Certificate in Full-Stack Development** – DigitalCrafts, 2023
- **BS, Mathematics & Computer Science** – The College of New Rochelle, 2017
